

# PUMPS

Summit Pumps and parts are interchangeable with Flowserve, Gorman Rupp, ITT Goulds, Moyno, Peerless, and Viking.

## CENTRIFUGAL PUMPS

ANSI

ANSI Self Primer

Split Case

Self Primer / Trash Pump

Close Coupled / Frame Mounted

## POSITIVE DISPLACEMENT PUMPS

Internal Gear

Progressive Cavity

Progressive Cavity (Wobble)

Internal Gear

## HORIZONTAL PUMPS

Peerless Pump offers a complete line of horizontal and vertical pumps, as well as systems and a digital information platform for all of today's pumping needs.

End Suction Frame Mounted Pump (F Series)

End Suction Close Coupled Pumps (C Series)

## VERTICAL PUMPS

Vertical Turbine Industrial Pumps Open Line Shaft (OLS)

Vertical Sump and Sewage Pumps (VCS)

Flowserve manufactures and services fluid motion control solutions for the world's toughest, most critical applications.

## PUMPS

Durco Mark 3 Metallic, Sealed, ASME (ANSI) Chemical Process Pump

## SEALS

Standard Cartridge Seals (ISC2-PX-61)

Slurry Seals (SLC)

## VALVES

Floating Ball Valves (FK79)

Rising Stem Ball Valve (RSBV)

# PUMPS

*There when you need us most*

Provides vertical and horizontal multistage booster, stainless steel centrifugal, submersible water well and wastewater, self-priming, in-line, and corrosion resistant end suction centrifugal pumps.

## STAINLESS STEEL CENTRIFUGAL PUMPS

FC Series

TC Series

## VERTICAL MULTISTAGE BOOSTER PUMP

NV Series

HOMA offers submersible pumps up to 500hp in cast iron and stainless-steel construction available with FM approved explosion proof enclosure.

## SUBMERSIBLE PUMPS

Heavy-Duty Solids Handling Pumps

Grinder Pumps

Effluent Pumps

Dewatering Pumps

Stainless Steel Pumps

Mixers

Parts and pumps are interchangeable with Wilden and are available in 1/4"-4" in aluminum, stainless steel, polypropylene, and cast iron.

## AIR OPERATED DOUBLE DIAPHRAGM PUMPS

Non-Metallic Double Diaphragm Pump Bolted

Non-Metallic Double Diaphragm Pump Clamped

Metallic Rubber/TPE-Fitted Air-Operated Double Diaphragm Pump Clamped

Metallic PTFE-Fitted Air-Operated Double Diaphragm Pump Bolted

Non-Metallic Rubber/TPE Fitted Air-Operated Double Diaphragm Pump Bolted

Provides regenerative turbine pumps, centrifugal process pumps, SMCA High Pressure Pumps and Thermoplastic M-Pumps

SCM Centrifugal Process Pump

STM Regenerative Turbine Pump

SMCA High Pressure Pump

TECH-MAG M-Series Pump

# PUMPS & SEALS

Manufactures magnetically driven pumps in various configurations including API 685 with max operating temperatures of 650 degrees F and up to 1000 HP.

## MAGNETIC DRIVE PUMPS

Centrifugal

Volumetric

Side Channel

Regenerative Turbine Pump

Manufactures cartridge mechanical and specialized seals for mixers/ agitators, aquariums, and slurries.

## MECHANICAL SEALS
