

# FIELD SERVICE

ABET's experienced pump technicians are available 24/7/365 for field service work.

Our technicians are highly experienced in equipment installation (and removal), laser alignments, condition-based vibration monitoring, and troubleshooting.

ABET is fully approved in both Avetta and ISNetwork, among others.

Easy-Laser SheaveMaster

## Vibration Monitoring

ABET provides condition-based monitoring services using our (ABET-owned) top-of-the-line vibration analyzer.

Keep tabs on the health of your plant or refinery's assets with our biweekly or monthly analysis and reporting programs.

ABET also provides permanent condition-based monitoring solutions via Waites Wireless' cutting edge product offering.

Monitor asset health from the convenience of your smartphone and receive alerts any time vibration or temperatures exceed limits set by experts.

***Our team is standing by to get your pumps up and running - CALL US!***

# BUSINESS LINES

## PUMP SALES

Provides a full range of pumps, seals and bearing isolators for complete technical solutions.

## MOTOR SALES

Distributor for the major manufacturers; local stock available with Regional and National access.

## CUSTOM FABRICATION

In-house machining capabilities reduce long factory lead times on OEM parts.

## FIELD SERVICE & REPAIR

Experienced pump technicians available 24/7/365 for field service work.
