

## IN-HOUSE REPAIR FACILITY

In-house machining capabilities allow ABET to reduce long factory lead times on OEM parts for our customers.

At Team ABET, we are:

**Experienced:** We have proudly served our customers in the greater Houston area for over 30 years.

**Trusted:** We built a hard-earned reputation for being responsive, knowledgeable and focused on YOUR success.

**Local:** We are a family-owned business with team members who live, work and invest in our local communities.

Our full-service pump repair and machine shop is conveniently located in Pearland, TX, South of Houston.

From small gear pumps to vertical turbine pumps, ABET is well-equipped to rapidly turn around repairs for your plant or refinery.

*We look forward to earning your business - CALL US!*

## CUSTOM FABRICATION AND MACHINING SERVICES

Our recently expanded and upgraded facility enhances our ability to provide service and support to our customers.

With both MIG and TIG welding machines, ABET can accommodate your custom fabrication needs. We have turning and milling machines to meet your project specifications, including lathes up to 34" x 80", mill with 4' table and a 42" VTL.

Horizontal Lathe

Horizontal Lathe

Vertical Mill

Vertical Turret Lathe (VTL)

ABET designs and manufactures tailored solutions for unique customer applications.

*Triplex Plunger Pump Package for a high-pressure pipeline injection application.*

*Recessed Impeller pump skid for a Summit Pump 2196R.*

*Case wear rings, impeller wear rings, shaft, and shaft sleeves, all machined in house, SAME DAY.*
